MATHS

ACTIVITY- Chance with coin

About the activity - Teaching probability using a coin is a classic and effective way to introduce the concept of chance and likelihood to students.

ACTIVITY- Spin and Win

About the activity - Introduce the concept of probability. Understand the likelihood of different outcomes. Explore the relationship between probability and fractions.

ACTIVITY- Probability using dice. About the activity - Using dice is an excellent way to introduce probability concepts to fourth-grade students. Here's an activity plan called "Roll and Learn" that incorporates dice to teach probability

EVS

MAKING FORCEMETRE
Handon activity of making focimeter and checking force of different objects.

PRESENTATION DAY
Presenting and explaining about energy and food chain to classmates. These kind of speaking activities boast confidence among students.

RESENTATION DAY
Presenting and explaining digestion and food components to classmates. These kinds of speaking activities boast confidence among students.
